Speaker **Cher Thomas, RDH**

Presents **"Medical History Monopoly"**

(Friday, April 17, 2020 - 1:00-4:00)

Texas State Technical College Harlingen

1902 N Loop 499

Harlingen, TX 78550

About the Speaker:

Linda Jacobs, RDH; Linda D. Chandler-Jacobs is an Independent Life Insurance and Annuities Agent. Linda has several years of experience as a motivated agent in sales and customer relations. Her primary goal has been to leverage a proven sales system and achievements into the open management role of her company. Licensed in Texas, Louisiana and Oklahoma. Linda is a graduate of the University of Texas School of Dentistry in Houston, Texas with a Bachelor of Science degree in Dental Hygiene. Linda has over 42 years of experience in the dental field. Linda has designed and implemented various protocols to enhance the evaluation, diagnosis and treatment of patients with chronic periodontal involvement. Her career research of treatment and practice management have been primarily focused on a direct correlation of the latest research of Pharmaceutical Drugs and how they systemically react with the dental patient. She has utilized preventive, therapeutic and educational methods to identify and treat various complications as they pertain to the dental patient. Linda has used state-of-the art research to active patients with Laser Technology with documented success. Her special interest has been the challenges facing patients with diabetes, osteoporosis and geriatric patients as their compromised medical health jeopardizes all aspects of their dental health. Linda still practices two days a week to accommodate her loyal patients.

Linda now focuses her time and efforts on education and guidance for those individuals in the Dental field so they may have the proper funds in place to successfully retire.

About the Speaker:

Mishie Nesbitt MBA, BS, CDA; Mishie Nesbitt has served over 25 years in the Dental Healthcare industry from both the private sector as well as the university level. Mishie is very passionate about the functionality of how the business and clinical operations work together from the Practice Administrative point of view!

About the course: (Friday, April 17th, 2020 – 9:00 – 12:00)

"Clinical Manifestation of Hemoglobins S Disease and the Dental Patient"

This seminar will guide the clinician regarding such patients with SCA who seek orthodontic treatment, dental implants and bone loss associated with periodontal disease. We will offer several references on multidisciplinary management of SCA. The dental implications of SCA must be fully understood by the Dental Professional to successfully treat the SCA patient in your practice. Treatment should begin only after a thorough investigation has been performed on the patient's background. Dental treatment such as orthodontics, dental implants and periodontal therapy should be carefully examined. Mucosal pallor, delayed eruption, dental hypoplasia and radiographic changes are common oral findings associated with the disease and often overlooked or missed entirely by the dental professional.

Objectives:

- Understanding the cause of the SCA
- Understanding the history of SCA
- Identifying the SCA
- Understanding the inheritance pattern of SCA
- Understanding the Classifications:
 1. Sickle Cell Trait
 2. Sickle Cell Disease
 3. Sickle Cell Crisis
- Diagnosis and Management of the SCA patient
- Examples of trabecular patterns and spacing
- Periodontal Health status
- Medical complications of SCA
- Anesthetic for the SCA patient
- Dental treatment precautions
- Dental Coding for various treatment of SCA

About the Speaker:

Cher Thomas, RDH; Cher Thomas, RDH is a Registered Dental Hygienist and a renal transplant recipient. Cher is a published author, international public speaker, and renal and cancer advocate. She graduated from Richland College in 1991 with an AAS in liberal arts and dental hygiene school at Tarrant County College in 1993. She has performed as both a dental hygienist and dental assistant in general dentistry, pediatric dentistry, periodontal practices, and public health dentistry. She was in the degree completion program at Texas Women's University when her kidneys failed.

In 2005, she received the Sunstar Butler Award of Distinction in Dental Hygiene and is currently a practicing dental hygienist in a private practice in Galveston, Texas.
