

Central Texas Dental Hygienists' Association

Presents

“From Pockets to Pathogens Maximize Technology for Optimal Periodontal Therapy Success” & “Progressive Products ; Innovations Every RDH Needs”

With

AMBER AUGER, RDH, MPH

Friday, Feb. 28, 2020 - 9:00 - 4:00

**TEMPLE COLLEGE PAVILION (Across from Allied Health Bldg.) Marvin Felder St. Temple, TX
76504**

About the Speaker...

Amber Auger, RDH, MPH is a practicing dental hygienist and clinical innovations implementation specialist. With over 14 years of experience in the dental industry, Amber provides customized protocols to allow the practice to thrive, refocuses on the patient experience, and utilize systemic approaches to Periodontal Therapy. Amber is a monthly contributor to RDH Magazine, featured author for DentistryIQ, Editor of RDH Graduate Newsletter, and host of #AskAmberRDH. Amber also provides preventive services abroad yearly and is always willing to have dental professionals join her team. She can be reached at AmberAugerRDH@gmail.com.

Friday, February 28, 2020 – 9am – 12pm

Course Description: Recommended for all team members

“From Pockets to Pathogens Maximize Technology for Optimal Periodontal Therapy Success”

Are you tired of treating patients with bleeding gums? We know that healthy gums don't bleed, therefore having a team approach to inflammation reduction is essential. Often, improper coding prevents the patient from having the coverage they deserve. Most private practices lack the protocols and systems to effectively treat Periodontal Disease, therefore this course is designed to empower the entire team, both clinicians and business team members.

Objectives

- Identify 7 steps to promote patient compliance with treatment recommendations, while increasing productivity.
- Access the 2017 APP Periodontal Classifications and review case studies
- Discuss DNA testing, chairside microscope education, and laser implementation
- Review new and innovative ways to improve the chairside experience for both the patient and the clinician; including voice recognition technologies, instruments and new homecare items that will optimize patient compliance.

Friday, February 28, 2020 – 1pm – 4pm

Course Description: *Recommended for all team members*

“Progressive Products; Innovations Every RDH Needs”

The culture of dentistry is changing vastly, especially as social media has changed the way our patients get information. This program is designed to go back to the "why"; why we choose the products we are treating our patients with, why we do what we do, and why our current protocols need to change. Empower your team with understanding the efficiencies of products, how they work to prevent oral diseases, and turn a new patient into a lifetime patient.

Objectives

- Review 5 steps to increase patient acceptance and behavior change for enhanced treatment outcomes
- Discover how the latest technologies are used to decrease the stress on the body of the hygienist while refining the patient experience
- Identify and sample products for your special needs patients including xerostomia, pediatric patients, periodontal involved, *high-risk* patients and many more

Thanks to these sponsors for their educational grants for today’s courses:

**Crest/Oral B, PDT, Sunstar Americas, CloSYS, Voco,
GC America, Pulpdent, Orascoptic, Air Techniques,
SonoMed**
